Portfolio

ABOUT ME

Front-end Developer with 2 years of professional experience in the development and maintenance of web applications.

I focus on Angular, TypeScript, RxJS, Tailwind CSS, SCSS, and PrimeNG, working on the creation of responsive, functional, and well-structured interfaces.

I am continuously looking to grow as a front-end developer, contributing with efficient solutions, a good user experience, and code quality.

PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER

EZ Soluções em Tecnologia LTDA — 06/2024 – Present

- Development and maintenance of web applications using Angular, currently version 20.
- Creation of responsive and component-based interfaces with Tailwind CSS, SCSS, and PrimeNG.
- Use of RxJS in Angular applications, working with Observables, reactive flows, and asynchronous data.
- Integration with RESTful APIs in Angular applications, using services and HTTP requests for data consumption and manipulation.
- Implementation of features, visual adjustments, bug fixes, and usability improvements.
- Initially hired as a Junior Front-End Developer, currently working with autonomy on the team's tasks, contributing to the implementation of features, bug fixes, and usability improvements in an agile environment with sprints.

LANGUAGES

- **Portuguese:** Native
- **English:** Upper-intermediate
